Juan Antonio Silva Flores

JAVA DEV/ARCHITECT

j.a.silva.f90@gmail.com https://juanantoniosilva90.github.io/ 5548374179

EXPERIENCE

UP Sí Vale
November 2025 – March 2026
Solutions / Software Architect

Achievements

- **Application optimization through debugging and clean code practices**
- **Implementation of architectural patterns (Layered Architecture, MVC, Pipeline Filter, Event-Driven Architecture, Message Queues, Modular Monoliths)**
- **Deployment of PODs in Google Cloud Platform**
- **Application observability and security using Datadog**
- **Incident management through Hotfix Pipelines**
- **Implementation of security technologies for third-party applications (OAuth, JWT)**
- **Proposal and implementation of third-party technologies: Optical Character Recognition (OCR), fingerprint, face recognition, data lakes, data factories**
- **Optimization of PL/SQL stored procedures considering data volume**

Skills

- **Application optimization through debugging and clean code practices**
- **Implementation of architectural patterns (Layered Architecture, MVC, Pipeline Filter, Event-Driven Architecture, Message Queues, Modular Monoliths)**
- **Deployment of PODs in Google Cloud Platform**
- **Application observability and security using Datadog**
- **Incident management through Hotfix Pipelines**
- **Implementation of security technologies for third-party applications (OAuth, JWT)**
- **Proposal and implementation of third-party technologies: Optical Character Recognition (OCR), fingerprint, face recognition, data lakes, data factories**
- **Optimization of PL/SQL stored procedures considering data volume**

Neoris México S.A. de C.V. (Client: Telcel)
May 2023 – February 2025
Solutions / Software Architect

Achievements

- **Reduction of financial and technological resolution times for incidents from 48 hours to a maximum of 1 hour and a minimum of 15 minutes**
- **Optimization of customer information and billing queries through the design, development, and integration of APIs based on microservices, event-driven, and service-oriented architectures**
- **Implementation of architectural patterns (Layered Architecture, MVC, Pipeline Filter) and cloud patterns (API Gateway, Serverless, Data Lake)**
- **Incident reconciliation and reduction of bureaucratic processes**

Skills

- **JDK 11, lambdas, streams, and concurrency: development of applications based on OOP, functional programming, and architectural patterns (MVC, MVP, Facade), Spring Framework, Lombok for boilerplate reduction**
- **Spring Security: implementation of security for third-party applications, secret management, and responsibility segregation**
- **Kafka: implementation of inbox/outbox patterns and event-driven architecture, incident management**
- **RabbitMQ: incident and ticket handling**
- **Azure: CosmosDB, Azure Key Vault**
- **GitHub: GitHub Actions, branching strategies**
- **CI/CD (Jenkins / GitLab): branch and hotfix implementation**
- **Bitbucket: pipelines and pull requests**
- **JUnit / Mockito: unit testing**

Sigma Consultoría (Client: Tiendas 3B Puebla)
October 2020 – July 2022
Junior Java Fullstack Developer / Trainee

Achievements

- **Acceleration of sales, billing, and inventory processes**
- **Development of intuitive and user-friendly interfaces**
- **Resilient communication between frontend and backend**
- **Development of a CRM-like platform implementing CRUD operations**

Skills

- **Spring Security: implementation of security for third-party applications, secret management, and responsibility segregation**
- **Kafka: implementation of inbox/outbox patterns and event-driven architecture, incident management**
- **RabbitMQ: incident and ticket handling**
- **Azure: CosmosDB, Azure Key Vault**
- **GitHub: GitHub Actions, branching strategies**
- **CI/CD (Jenkins / GitLab): branch and hotfix implementation**
- **Bitbucket: pipelines and pull requests**
- **JUnit / Mockito: unit testing**

DEGREE AND COURSES

- August 2016-February 2020
  Computer Engineering; Tecnológico de Estudios Superiores de Ecatepec

- August 2025
  Associate Solutions Architect, Amazon Web Services; (Certification exam: dates to be define)
